

Saint Aubin, May 15, 2017

Dear Madams/Dear Sirs,

We are pleased to invite your company to participate in the 6th Accelerator Reliability Workshop, ARW 2017 that will take place in Versailles, France, from October 15 to October 20, 2017. ARW 2017 is hosted by Synchrotron SOLEIL and supported by ESRF, GANIL, Institut Curie and the French Physics Society. It follows in the tradition of successful workshops started by the ESRF (Grenoble 2002), TRIUMF (Vancouver 2009), iThemba (Cape Town 2011), the Australian Synchrotron (Melbourne 2013) and SNS (Knoxville 2015).

The ARW gathers the worldwide accelerator community to meet and enhances the sharing of experiences on operating reliable facilities. The workshop fulfills the need to improve information exchange on technical issues and equipment reliability. It facilitates the opportunity for individuals to share their problems and solutions with their peers from other facilities, worldwide.

We invite you to visit [ARW 2017 website](#).

We do believe that ARW 2017 is indeed a very beneficial platform for your company. Two one-hour sessions are identified in the workshop program as a privilege time to present products and development related to the main thematic of the event.

We would like to invite you to start scheduling your participation as an industrial exhibitor or sponsor. Different options are available, which are detailed in the next pages. If you wish to join us, please fill in and send in the registration form. For any further inquiries concerning exhibiting and sponsoring ARW 2017, please contact LOCARW2017@synchrotron-soleil.fr.

Should you have any questions and/or require further information, please do not hesitate to contact us.

We are looking forward to hearing from you soon.

Kindest regards,

On behalf of the Local Organizing Committee,

Dr. Laurent S. Nadolski – Local Chair.
